INDEX TO VOL. XXXV (B)

AUTHORS' INDEX

Alikunhi, K. H.	..	*See* Ganapati and Alikunhi.
Ananthakrishnan, T. N.	..	A new species of thrips—*Ecacanthothrips ramakrishnai* sp nov. (*Thysanoptera tubulifera*) from South India, 38.
Bal, D. V.	..	*See* Bapat and Bal.
Bapat, S. V. and Bal, D. V.		The food of some young fishes from Bombay, 78.
Bharucha, F. R. and Sheriar, K. C.		An improved technique for estimating the nitrifying capacity of soils, 28.
Chari, S. T.	..	*See* Chidambaram and others.
Chidambaram, K., Krishnamurthy, C. G. Venkataraman, R. and Chari, S. T.		Studies on Mackerel: fat variations and certain biological aspects, 43.
Duraiswami, S. and Subramaniam, M. K.		Studies on the mutagenic action of chemical and physical agencies on yeasts, V, 155.
Ganapati, S. V. and Alikunhi, K. H.		Experiments on the acclimatisation of saltwater fish seed to freshwater, 93.
Giri, K. V.	..	*See* Rao and Giri.
Karandikar, K. R.	..	*See* Palekar and Karandikar.
Krishnamurthy, C. G.	..	*See* Chidambaram and others.
Nair, R. Velappan	..	Studies on some fish eggs and larvæ of the Madras plankton, 181.
	..	Studies on some post-larval fishes of the Madras plankton, 225.
Nigam, S. S.	..	*See* Rajan and others.
Palekar, V. C. and Karandikar, K. R.		Maturity and spawning period of *Thrissocles purava* (Ham.) as determined by ova-diameter measurements, 143.
Rajan, B. S. V., Nigam, S. S. and Shukla, R. K.		A study of the atmospheric fungal flora at Kanpur, 33.
Ramakrishnan, T. S.	..	Additions to fungi of Madras, XII, 111.
Rao, P. Seshagiri and Giri, K. V.		Interaction of vitamin C and urease, 132.
Rao, S. K. Sreepathi	..	*See* Subramaniam and Rao.

634777

Sheriar, K. C.	..	*See* Bharucha and Sheriar.
Shukla, R. K.	..	*See* Rajan and others.
Singh, Inderjit	..	*See* Singh and Singh.
Singh, Sunita Inderjit and Singh, Inderjit		Stimulation of unstriated muscle by change of temperature and other effects of temperature, 167.
	..	The mode of action of adrenaline on unstriated muscle, 214.
	..	Recovery of excitability from inhibition in unstriated muscle, 245.
Solomon, S.	..	Studies in the physiology of phanerogamic parasitism with special reference to *Striga lutea*, Lour. and *S. densiflora*, *Benth.* on *Andropogon sorghum*, Hack, I, 122.
Subramaniam, M. K.	..	*See* Duraiswami and Subramaniam.
Subramaniam, M. K. and Rao, S. K. Sreepathi		Studies on the mutagenic action of chemical and physical agencies on yeasts, IV, 1
Sulochana (Miss), C. B.	..	Soil conditions and root diseases, III, 209.
Tiwari, K. K.	..	The morphology of *Nichollsia kashiense* Chopra and Tiwari (Crustacea: Isopoda phreatoicoidea), I, 69.
Venkataraman, R.	..	*See* Chidambaram and others.

TITLE INDEX

Atmospheric fungal flora at Kanpur, a study (Rajan and others), 33.

Ecacanthothrips ramakrishnai sp. nov. (*Thysanoptera tubulifera*) from South India, a new species of thrips (Ananthakrishnan), 38.

Fish eggs and larvæ of the Madras plankton, some, studies (Nair), 181.

Fishes, post-larval, some, of the Madras plankton, studies (Nair), 225.

Fishes, young, some, from Bombay, the food (Bapat and Bal), 78.

Fish seed, salt water, acclimatisation, to fresh water, experiments (Ganapati and Alikunhi), 93.

Fungi of Madras, additions, XII (Ramakrishnan), 111.

Mackerel, studies: fat variations—and certain biological aspects (Chidambaram and others), 43.

Muscle, unstriated, mode of action of adrenaline (Singh and Singh), 214.

Muscle, unstriated, recovery of excitability from inhibition (Singh and Singh), 245.

Muscle, unstriated, stimulation, by change of temperature and other effects of temperature (Singh and Singh), 167.

Nicholsia kashiense Chopra and Tiwari (Crustacea: Isopoda phreatoicoidea), the morphology, I (Tiwari), 69.

Parasitism, phanerogamic, studies in the physiology, with special reference to *Striga lutea*, Lour. and *S. densiflora*, Benth. on *Andropogon sorghum* Hack, I (Solomon), 122.

Soil conditions and root diseases, III (Sulochana), 209.

Soils, nitrifying capacity, an improved technique for estimating (Bharucha and Sheriar), 28.

Thrissocles purava (Ham.), maturity and spawning period, as determined by ova-diameter measurements (Palekar and Karandikar), 143.

Vitamin C and urease, interaction (Rao and Giri), 132.

Yeasts, mutagenic action of chemical and physical agencies, studies (Subramaniam and Rao), IV, 1; V (Duraiswami and Subramaniam), 155.
